COMPANY PROFILE

Lon Chuang Intelligent Technology is an innovative company specializing in the design, research and development, as well as manufacturing of home lifts worldwide. Headquartered in the Chinese city of Jiaxing, the company has two R&D and manufacturing bases in Suzhou and Jiaxing. We are committed to providing quality products that meet the smart home lifestyle needs of global consumers.

Lon Chuang is dedicated to innovation, creative trends, as well as safe design and manufacturing. We are one of the leading companies that build artistic and comfortable home lifts, as opposed to conventional lifts that are dull. Visual elements are combined with rigidity and flexibility in material selection to create cozy lifts that boost users' quality of life.

Vitarte
维亚帝

My Villa, My Vitarte

★ Phase I of the New Factory of Lon chuang Intelligent Technology (Zhejiang) Co., Ltd.

DEVELOPMENT COURSE

2014 Company start-up

The company was registered and established, introducing the Swedish brand Aritco.

2017 Expand gradually

Opened more than ten showrooms in first-tier cities such as Beijing, Shanghai, and Guangzhou.

2016 Set sail

Established its own after-sales service team, and opened its first showroom in Qingdao.

2018 Transformation and upgrading

Renamed itself Lonchuang, built a service brand, and introduced stairlift products.

2021 Progress in parallel

The company successfully launched its own brand Vitarte, which went on to win two prestigious awards including the Red Cotton Award. It also introduced the Swedish brand SWIFT, and later debuted its proprietary brand Longtron. Today, its business spans over 160 cities.

2024 Add the finishing touch

High-tech enterpriseThe Jiaxing Manufacturing Base was awarded the titles of “Specialized, Refined, Unique and Innovative Enterprise” “Zhejiang Provincial Innovative Enterprise.”

2020 Technological breakthrough

Suzhou R&D Center established
“Little Giant” enterprise status awarded
50+ showrooms & service centers nationwide

2023 Constant Renewal

Over 100 experience centers nationwide
Phase I of the new Jiaxing factory was completed.

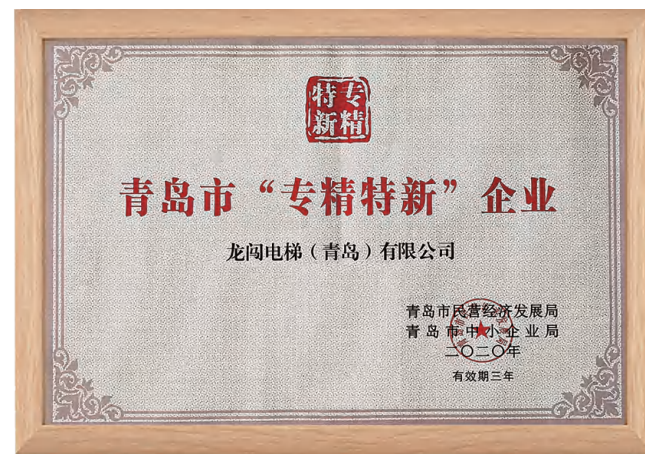

2022 Integrated production and R&D

The Jiaxing manufacturing base officially commenced production. Vitarte won the IAI Award and the German Design Award, and launched its new CHIC series.

2019 Expand nationwide

32 Showrooms & Service Centers Nationwide

TECHNICAL SPECIFICATIONS

ONE-TOUCH DIALING

Standard configuration includes a one-touch call button. The homeowner can set up to five outgoing phone numbers. In the event of an emergency, passengers simply press the call button, and the system will intelligently dial the numbers in sequence until a connection is made to obtain outside assistance.

INTERNET OF THINGS

At the monitoring center or backend, the online status of each elevator can be supervised in real time, allowing for quick identification of usage issues. This facilitates accurate and efficient maintenance and repair work in the future.

Number of Stops: 2-6 floors

Lift Height: Standard configuration : lift height 18m

Top Floor Clearance: Counterweight side-mounted: 2700mm – 3200mm
Counterweight rear-mounted: 2850mm – 3100mm

Pit Depth: Counterweight side-mounted: 150mm – 300mm
Counterweight rear-mounted: >150mm

Control Voltage: Single-phase 220VAC $\pm 7\%$; Three-phase 380VAC $\pm 7\%$

Speed Standards: 0.3m/s (manual sliding door):0.4m/s (other door types as optional)
Optional 0.63m/s

Door Opening Types: Standard: Center-opening doors
Optional: Manual sliding door, side-opening door, center-opening double-fold door, automatic single-opening door, automatic swing door

Hoistway Structure: Enclosed concrete hoistway, Aluminum alloy sightseeing hoistway

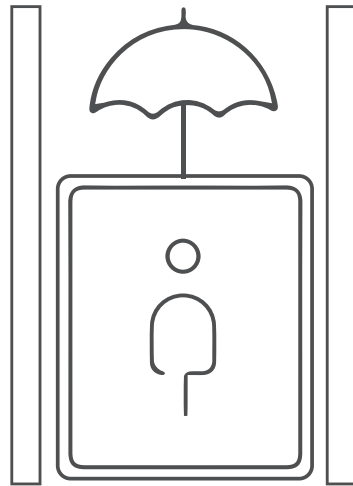

Safety Functions: Included (as standard)

Drive System: Standard: Rope traction, Optional: Belt traction

Card Access System: Optional: in-car card access, hall card access

Control Cabinet: Standard: NICE3000+ (without IoT functionality)
Optional: NICE3000+ (with IoT functionality)

PRODUCT INTRODUCTION

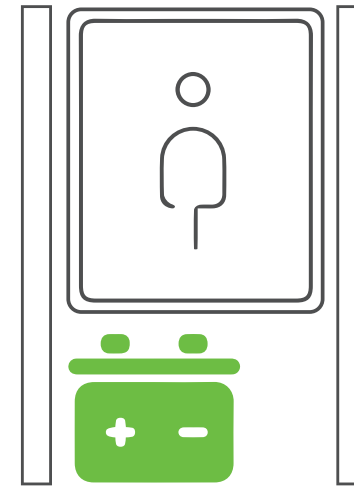

GUARD SAFETY IN ALL DIRECTIONS

SAFETY

40+26+8

Featuring 40 standard operating functions, 26 standard safety functions, and 8 optional functions, we are a safety powerhouse — delivering all-around protection so you ride the elevator with total peace of mind.

PRODUCT INTRODUCTION

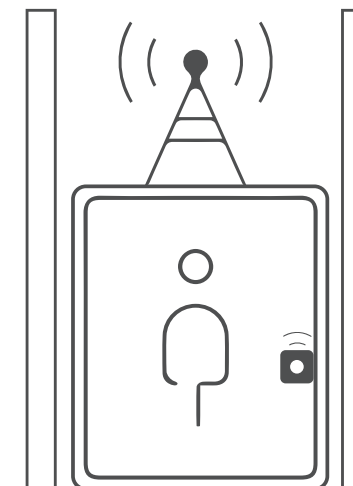

STANDBY POWER SUPPLY

SAFETY

ARD FOR POWER FAILURE LEVELING

In a power cut, the Y10-3 backup power takes over, bringing the elevator to the nearest floor and opening the doors — so you're never trapped inside.

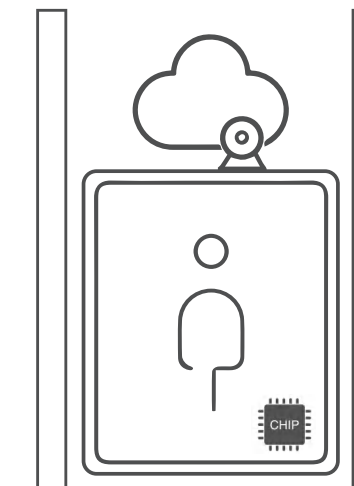

ONE - TOUCH DIALING

SAFETY

CALL WITHOUT A PHONE

Standard one-touch emergency call lets owners preset 5 numbers; in an emergency, just press the button — the system dials them sequentially until someone answers, ensuring swift outside help.

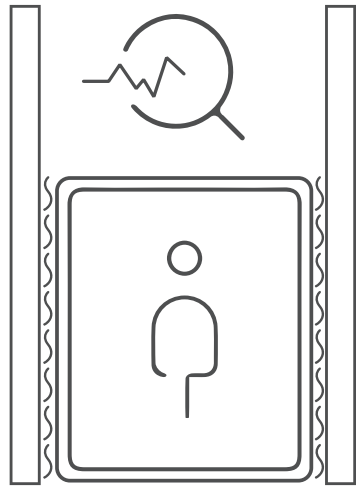

INTERNET OF THINGS

SAFETY

REMOTE MONITORING & PROTECTION

Our monitoring center tracks every elevator in real time, ensuring safe operation. Faults are quickly identified, allowing accurate, efficient maintenance and prompt resolution.

PRODUCT INTRODUCTION

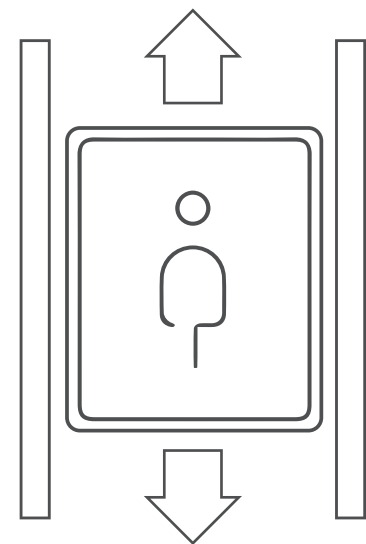

AI - POWERED SELF - RESCUE SYSTEM

SAFETY

SMART CONTROL SYSTEM

When the elevator encounters a non-fatal fault, it drives the car at an extremely low speed, automatically moving it to the nearest landing (prioritizing a normal floor with a usable door), and then opens the doors automatically to release passengers — preventing anyone from being trapped inside the car.

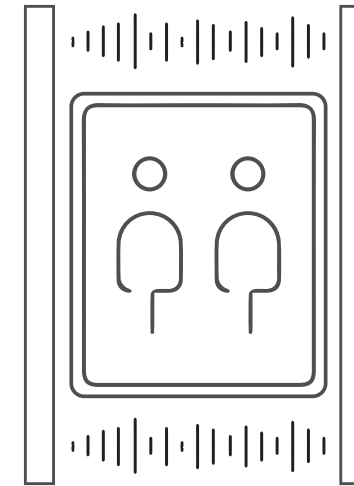

HIGH - PRECISION CONTROL

COMFORT

SMOOTH ENTRY AND EXIT

Car operation data memory + intelligent floor position correction makes the Y10-3 series' smart leveling function even more powerful. Sampling data shows that when the car arrives at a floor, the height difference between the car and the ground is $\leq 1\text{mm}$ — allowing luggage, wheelchairs, and strollers to pass through smoothly.

PRODUCT INTRODUCTION

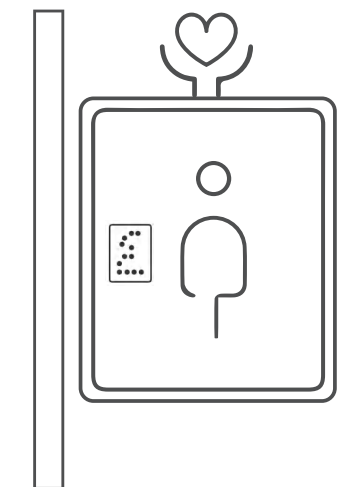

COMFORTABLE AND QUIET

COMFORT

YOU COULD HEAR A PIN DROP

Third-gen rare-earth magnets, coaxial drive, digital frequency conversion, and group control power a machine-room-less permanent magnet system. With ultra-quiet, contactless design, every ride is serene and whisper-smooth.

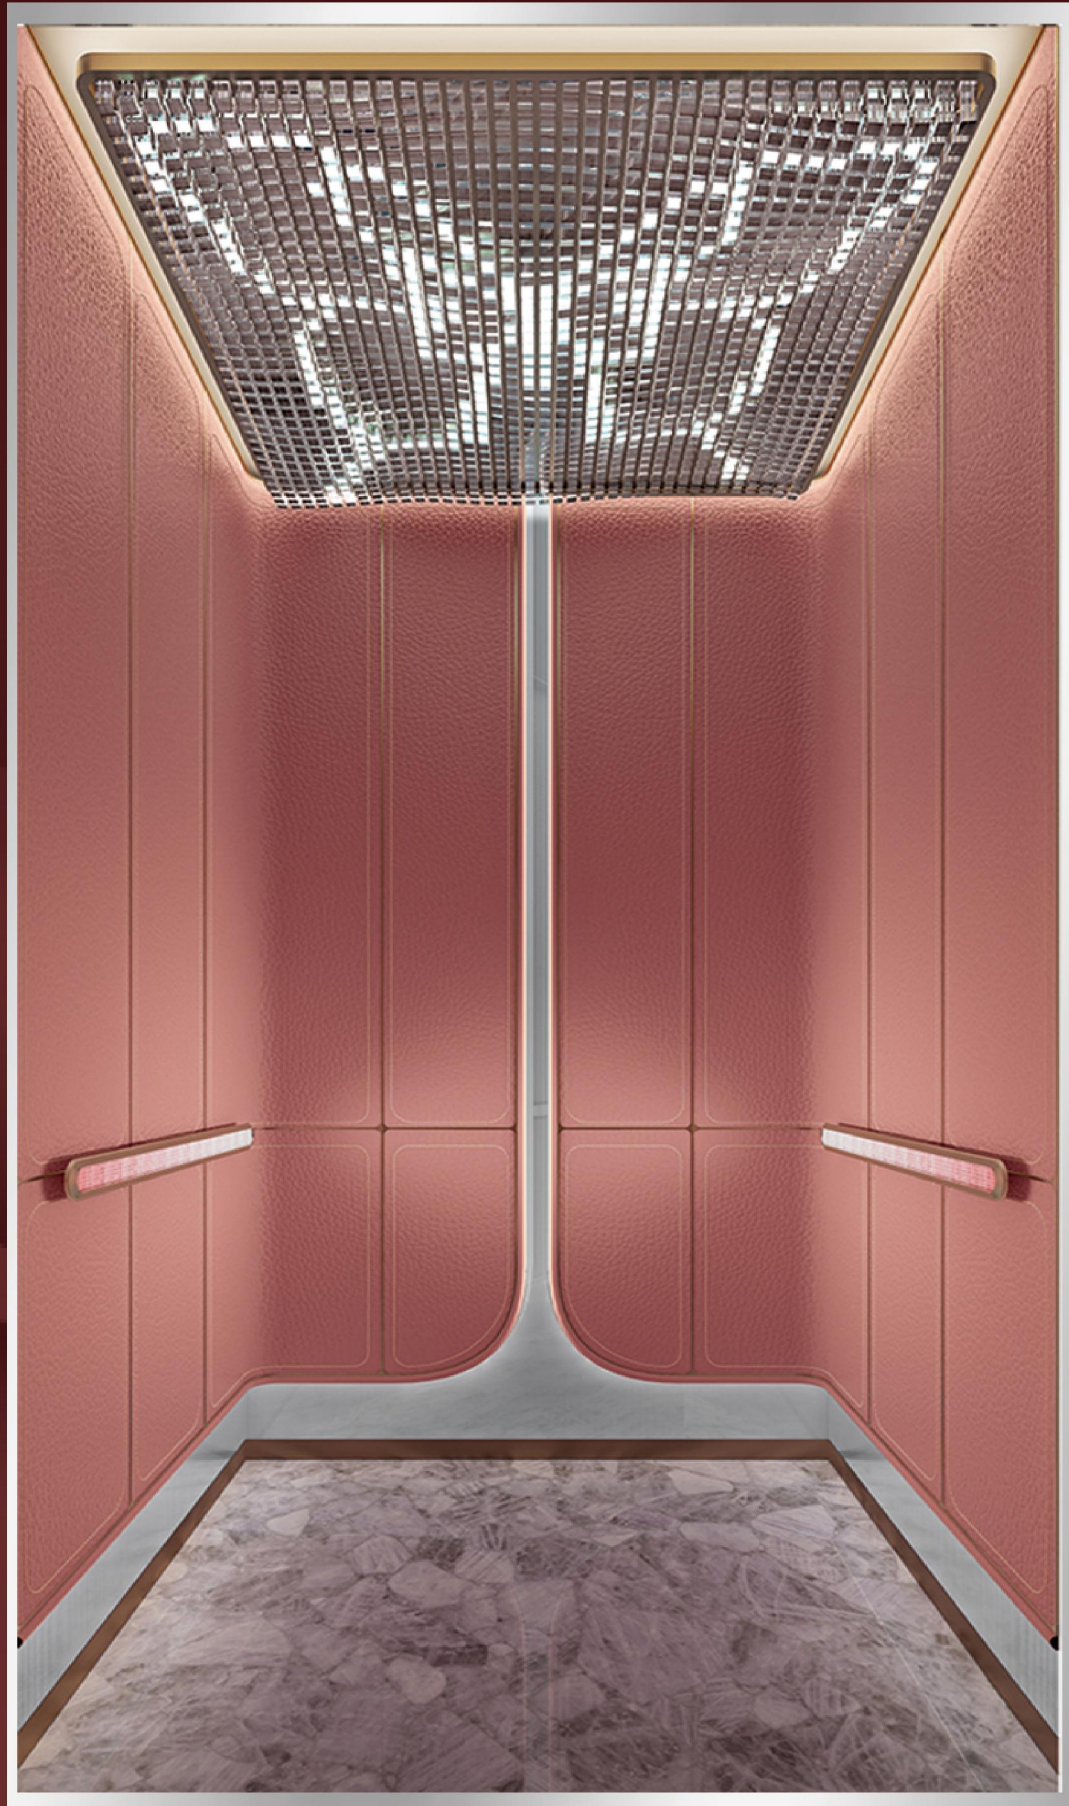

ACCESSIBILITY SERVICES

COMFORT

CARE FOR EVERYONE

A wheelchair-accessible control panel and Braille buttons can be added inside the car to facilitate barrier-free access for people with different needs.

White crystal
marble flooring

Pink leather
hard cladding

HIGH-END CUSTOMIZATION

Prime of youth

Peach and plum blossoms first unfold; swallows carry clay with care.
Willow smoke drifts lightly, veiling creeks of emerald air.
Breezes brush flower shadows, fragrance fills the sleeves;
A tree's fresh crimson bows beneath the sun's gaze that grieves.

Every touch of tender hue
Is a love letter written for the world anew,
Tracing dreams that linger, soft and deep,
Unfolding life in its most graceful shape to keep.

CUSTOM
BUTTON

1 Car Ceiling: Brushed antique bronze stainless steel frame, gradient art acrylic panel, concealed LED strip lighting.

2 Rear Wall: Leather hard cladding, concealed LED strip lighting, art acrylic panel.

3 Side Walls: Leather hard cladding, concealed LED strip lighting, art acrylic panel.

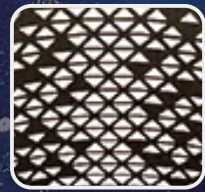

Front Wall: Brushed antique bronze stainless steel.

Car Door: Brushed antique bronze stainless steel.

Handrail: Brushed antique bronze stainless steel combined with gradient art acrylic featuring concealed illumination.

Baseboard (Kick Plate): Brushed antique bronze stainless steel.

Floor: White crystal marble flooring.

Brushed antique bronze stainless steel "grain-pattern" hollow panel

brown leather hard cladding

HIGH-END CUSTOMIZATION

Starry sky

The Milky Way hangs upside down, mirroring the vault of heaven;
 Ten thousand stars light the night sky far and wide.
 The crescent moon slants beside the clouds in tranquil grace;
 Heaven's music falls silent, slipping into dreams with no sound.

When starlight pours into our eyes,
 We will come to understand:
 The tiny and the vast share the same origin;
 Fragility and eternity dwell side by side.

CUSTOM
BUTTON

Car Ceiling: Brushed antique bronze stainless steel "grain-pattern" hollow panel.

Rear Wall: Black titanium brushed anti-fingerprint stainless steel frame, infinity mirror.

Side Walls: Black titanium brushed anti-fingerprint stainless steel frame, brown leather, concealed LED strip lighting.

Front Wall: Black titanium brushed anti-fingerprint stainless steel.

Car Door: Black titanium brushed anti-fingerprint stainless steel.

Baseboard (Kick Plate): Black titanium brushed anti-fingerprint stainless steel.

Floor: Versace Black marble flooring.

Sintered stone
(Hotan Jade)

white leather
hard cladding.

HIGH-END CUSTOMIZATION

Flame Lotu

Crimson lotus karma-fire breaks the boundless sea;
Blazing flame scorches the sky, quelling a mighty calamity.
The cosmic ring brands a blazing mark across the land;
Daring to borrow a searing star from the vault of heaven's hand.

In modern spaces, we write chapters of legend that never fade;
Each elevator ride becomes a wondrous voyage through Eastern myth made real.

CUSTOM
BUTTON

Car Ceiling: Rose-gold brushed stainless steel with striped etching, rose-gold brushed stainless steel frame, acrylic panel (interlay with “回” pattern), acrylic light-transmissive plate.

Rear Wall: Rose-gold brushed anti-fingerprint stainless steel with striped etching, white leather, rose-gold brushed stainless steel frame.

Side Walls: Rose-gold brushed anti-fingerprint stainless steel with striped etching, white leather, rose-gold brushed stainless steel frame.

Front Wall: Rose-gold hairline anti-fingerprint stainless steel.

Car Door: Rose-gold hairline anti-fingerprint stainless steel.

Baseboard (Kick Plate): Rose-gold brushed stainless steel frame.

Floor: Sintered stone (Hotan Jade).
